CSPDCL.....

Subject : – For onwarding Unidirectional meter info Bi-directional meter.

Sir,

I am a consumer of CSPCL having a residential connection in name of ..... and my connection number is ..... I have applied for RTS PV (solar roof top) system under PM Surya Ghar Yojna in my residence. CSPDCL has already installed a smart meter in my residence but it is operating in unidirectional mode. Due to installed solar connection that meter has to work in Bi-directional mode, so it can register excess unit generated by Solar Roof Top system and export it to main grid.

So I request you to convert my smart meter into a net meter for the generation of net bill in my connection and register both import and export of electricity units.

Thanking You

Your's Truly
